RE - DESIGNED AIR VANE GOVERNOR

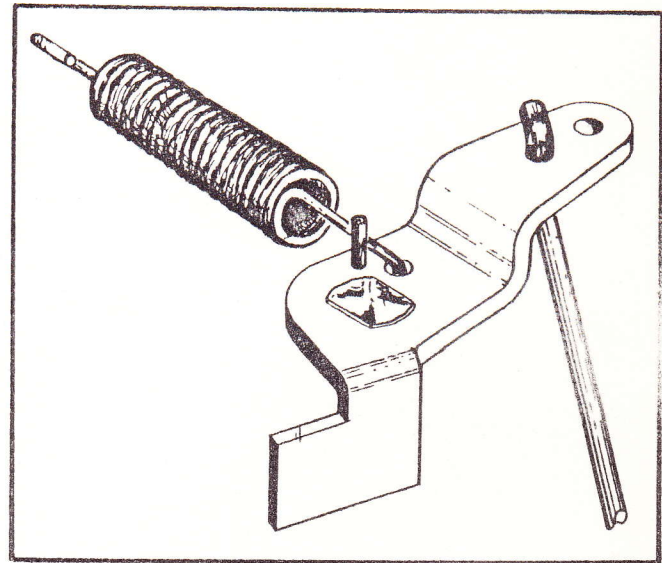

A replacement Air Vane Governor Part 107-34 is available to eliminate surging. This new air vane can be used on all engines now using the 107-30 air vane. On some models when installing the new air vane, it will be necessary to change link, spring and throttle shaft. Listed below are the engines and required parts.

For Series 401, 407-0002, 411, 415 Engines:

1. Use 107-34 Air Vane
2. Use 159-161 Link
3. Change Link and Spring hook - up as shown

For 407-0000 Flat - top Series and 499 Series:

1. Use 107-34 Air Vane only

For Series 400, 404, 406 and 426 equipped with Touch 'n Go :

1. Use 107-34 Air Vane
2. Use 159-162 Link
3. Use 6-467-500 Throttle & Shaft
4. Use 263-372 Speed Regulating Spring

For Series 400, 404, 406 and 426 with Fixed Speed Control :

1. Use 107-34 Air Vane
2. Use 158-162 Link
3. Use 6-467-500 Throttle Shaft
4. Use 263-372 Spring
5. Use 157-422-500 Fixed Speed Lever
